What is Use Tax?

A seller must collect Vermont Sales Tax on tangible personal property at the time and place of the sale. If your business makes purchases subject to Sales Tax, but it is not charged, then Use Tax is imposed on your purchases. Here are some common reasons:

- You buy property out-of-state or have it delivered to you in Vermont and the vendor does not charge sales tax.
- You bring into Vermont property you purchase from out-of-state. The tax is reduced by any tax paid to the other state.
- You buy property in Vermont and the seller fails to collect the sales tax from you.
- You take items out of your inventory which you purchased tax-exempt and use them in your business.
- You use property which you normally produce for sale in your business. The tax is on the normal selling price for the property.

What is Local Option Sales Tax?

The State of Vermont has authorized certain municipalities to assess a 1.0% Local Option Sales Tax, which is in addition to state Sales Tax. Local Option Sales Tax is based on the location where the item is delivered. Vendors located within a Local Option Sales Tax municipality must collect the tax on in-store sales and sales of items which are shipped to Local Option Sales Tax municipalities. Vendors located outside Local Option Sales Tax municipalities must collect the tax on items shipped into Local Option Sales Tax municipalities. Delivery charges are subject to any state Sales and Local Option taxes.
