# Property Tax Administration for 2021 Tax Year

## Equalization

The Division of Property Valuation and Review (PVR) of the Vermont Department of Taxes annually determines the equalized education property value (EEPV) and coefficient of dispersion (COD) for each municipality in Vermont. The EEPVs determined as part of the 2021 equalization study are a measure of the property dollar value of a municipality. They are used as an important data element in the setting of education tax rates for all Vermont school districts.

The measure of a municipality's total taxable education property value to the total taxable EEPV is the common level of appraisal (CLA). The CLA is used to equalize the education property tax rates throughout the state. This year's equalization study was based on the assessed value of property as established by each municipality as of April 1, 2021.

The procedures for completing the study may be generally described as follows:

- 1) Data for each sale occurring in each municipality is collected, using information extracted from the Property Transfer Tax Returns filed with the Department. Information from sales for the current year and the two prior years is used in the study.
- 2) The records of the sales are sent to the municipality where the sales are recorded for verification, and a review is conducted of the circumstances of each sale. The verification process results are used to eliminate sales that do not represent arm's length sales. Special attention is given to those sales that are identified as outliers or extremes by the Statistical Package for the Social Sciences (SPSS) analytical software that generates the ratios.
- 3) When there are insufficient sales (fewer than five) for a reliable sample at the town level, supplemental appraisals are obtained to ensure that a reliable sample is available for equalization.
- 4) All sales that are approved for inclusion in the study are equalized at the category, class, or town level depending on the confidence level present and are then aggregated to achieve a CLA.

Figure 1. Grand List Categories

Category Number	Grand List Category Code	Use Class
1	R1 - Residential 1	Residential
2	R2 - Residential 2	Residential
3	MH-U - Mobile Home-Unlanded	Residential
4	MH-L - Mobile Home-Landed	Residential
5	S1 - Seasonal 1	Residential
6	S2 - Seasonal 2	Residential
7	C - Commercial	Commercial/Industrial
8	CA - Commercial Apartments	Commercial/Industrial
9	I - Industrial - Manufacturing	Commercial/Industrial
10	UE - Industrial - Electric Utility	Utilities
11	UO - Industrial - Other Utility	Commercial/Industrial
12	F - Farm	Land
13	O - Other	Category used to isolate a unique type of property, such as condominiums or lakefront properties
14	W - Woodland	Land
15	M - Miscellaneous	Land

5) The ratio of listed-value-to-sales-price is calculated for all included sales. Individual ratios are examined for unusual values and are flagged for investigation and possible exclusion from the sample.

6) The ratios for the included sales are aggregated at the grand list category, class, and for the municipality as a whole. In addition, a statistical analysis is applied to determine whether the aggregated ratios are within a 10% margin of error at a 90% confidence interval for each grand list category and use class. If the aggregate ratio of the sample is reliable at the category level, that ratio is applied to equalize the category. If the ratios are not reliable at the category level, the class level is used. If the aggregate ratio is not reliable at the class level, the ratio is applied at the municipal level.

7) The resulting reliable ratios are applied to the aggregate grand list value for the appropriate category, class, or the municipality to compute the EEPV for the municipality. The equalized education property tax grand list is 1% of the EEPV for the municipality.

8) The COD is also calculated from the results of the equalization study to assess the internal fairness of each municipal grand list. The COD represents the degree to which individual property valuations vary from the median level of appraisal in that municipality. A high COD also indicates a need for a reappraisal.

## Property Values

Statewide, the total listed value went up about 4.8%. Two factors generally affect the change in listed values: new construction and reappraisals.

For the 2021 tax year, there were reappraisals in 15 towns (see Figure 2).

Figure 2. Reappraisals

Tax Year	2021	2020	2019	2018	2017	2016	2015	2014	2013
Reappraisals	15	16	22	14	17	18	11	17	20

New construction has almost fully recovered from the 2007 peak and subsequent housing recession (see Figure 3).

Figure 3. U.S. Census Bureau Annual Survey of Building Permits, Vermont, 2020 (the most recent year available) by Year

	Vermont Total	1 Unit/Structure	2 Units/Str	3 & 4 Units/Str	5 Units/Str	>5 Units/Structure

2008	1444	1057	92	59	236	18

### Equalized Education Property Values

The state total equalized education property value increased by about 7.1% this year. This growth rate is considerably higher than the prior years' which have been consistently increasing by approximately 1-3% as the real estate market recovered over the past decade from the 2008-2009 economic downturn. In 2021 this continual improvement was further augmented by the current COVID-19 pandemic which has significantly bolstered Vermont's real estate market.

The equalized municipal property value is derived from the grand list that municipalities use to assess municipal (i.e., non-education) property taxes. Some of the differences between the equalized municipal property values (see Figure 5) and the equalized education property values result from the inclusion of business personal property (machinery and equipment, inventory) in the equalized municipal property values. There are also differences in the allowable veterans' exemptions (\$10,000 limit for education property value and up to \$40,000 for municipal property value) and other exemptions voted by the town.

Figure 4. Education Property Listed Values by Year

<b>Tax Year</b>	<b>Educ LV (Billions \$)</b>	<b>% Change</b>	<b>EEPV (Billions \$)</b>	<b>% Change</b>
<b>2021</b>	87.1	4.8%	95.5	7.1%

<b>2015</b>	80.1	1.3%	79.9	1.4%
<b>2014</b>	79.0	0.6%	78.8	0.8%
<b>2013</b>	78.6	0.3%	78.1	-0.5%
<b>2012</b>	78.4	0.7%	78.5	-1.5%
<b>2011</b>	77.8	2.0%	79.6	-2.0%
<b>2010</b>	76.3	2.6%	81.3	-1.6%
<b>2009</b>	74.4	4.1%	82.6	2.2%

Figure 5. State Total Equalized Municipal Property Values by Year

<b>Tax Year</b>	<b>Equalized Municipal Prop Value (\$Billions)</b>
<b>2021</b>	96.7
<b>2020</b>	90.3
<b>2019</b>	87.5
<b>2018</b>	85.2
<b>2017</b>	83.4
<b>2016</b>	82.0
<b>2015</b>	80.9
<b>2014</b>	80.0
<b>2013</b>	79.3
<b>2012</b>	79.6
<b>2011</b>	80.7
<b>2010</b>	82.2
<b>2009</b>	83.8

The total taxable business personal property (machinery/equipment and inventory) value this year increased to \$1,006 million. Both Municipal and Education Property taxes are levied on Cable (Cable television assets). However, Education Property taxes are not levied on machinery/equipment nor inventory. This year, 46 municipalities taxed machinery and equipment, and eight taxed inventories.

Figure 6. Personal Property on Municipal Grand List by Year

Tax Year	Personal Property on Municipal Grand List (\$Millions)	Municipalities That Tax Machinery and Equipment	Municipalities That Tax Inventory
2021	1006.5	46	8
2020	976.9	46	8
2019	970.6	45	9
2018	929.0	45	7
2017	924.4	30	10
2016	924.4	60	13
2015	923.1	60	13
2014	914.0	61	15
2013	922.4	62	34
2012	843.5		
2011	845.2		
2010	827.8		
2009	852.2		

This year, all counties showed an increase in equalized education property value. Lamoille saw the greatest percentage increase over 2020 (see Figure 7).

Figure 7. Change in Education Equalization Property Values by County (2020-2021)

County	% Change	Rank
Lamoille	10.5%	1
Windsor	7.9%	2
Bennington	7.9%	3
Washington	7.8%	4
Grand Isle	7.6%	5
Rutland	7.6%	6
Chittenden	6.7%	7
Windham	6.3%	8
Addison	6.2%	9
Franklin	6.1%	10
Essex	5.7%	11
Caledonia	5.7%	12
Orange	5.4%	13
Orleans	5.3%	14

Note that the values for the equalization study are based on results prior to any appeals. Appeals by municipalities may result in a slight reduction in the 2021 equalized values. In past years, appeals have resulted in less than half of a percent decrease in the statewide total value.

## Taxes and Tax Rates

The homestead base rate is set to 1.00. This year's property dollar equivalent yield is \$11,317.

Figure 8. Education Spending by Year <sup>1</sup>

	Homestead Base Rate	Homestead Property Yield	Nonhomestead Base Rate	EEPV (Billion \$)	Education Spending <sup>1</sup>	Education Fund Tax Adjustments (State Payments)
<b>2021</b>	1.00	11,317	1.612	95.5	1,496,610,620	171,553,982

2009	1.21	1.33	0.44	1.65	1.77

<sup>1</sup> Municipal taxes include town/city level taxes plus taxes of villages and special districts.

## Assessment practices in Vermont

There are two widely used measures for evaluating assessment practices in Vermont—the common level of appraisal (CLA) and the coefficient of dispersion (COD), as explained above. The CLA is the ratio of a municipality’s total grand list value to its corresponding “equalized” value derived through PVR’s equalization study. The statewide CLA was 91.2% this year.

Figure 11. Statewide CLA by Year

Tax Year	Statewide CLA
2021	91.2%
2020	93.2%
2019	95.6%
2018	97.3%
2017	98.7%
2016	99.5%
2015	100.2%
2014	100.2%
2013	100.3%
2012	99.6%
2011	97.6%
2010	94.2%
2009	90.1%

The CLA may also be used to evaluate assessment practices by considering the change in the number of municipalities that have extremely low CLAs, and are therefore far from Vermont’s statutorily set standard of 100% of fair market value. As the CLA decreases, indicating valuations that are further away from true market value, the more difficult it is for property owners to analyze whether their valuation is equitable. In 1981, 41 municipalities were appraising property at less than 30% of fair market value. In 2007, there were only 26 districts with a CLA less than 60%. By 2014, there were no longer any districts that had a CLA under 80%, the historical statutory threshold below which a district would receive a reappraisal order from PVR. In recent years there have been a handful of towns that had calculated CLA’s of around 80% while scheduling or completing reappraisal activity.

There is also a concern for towns with a CLA above 100%, not only in terms of appraisal accuracy, but also as a potential legal issue. Grand list valuations should not exceed 100% of fair market value. It is reasonable to see some minor variation around the 100% mark because markets are dynamic, and the evaluation and reporting of the grand list is a snapshot at a specific time. Given the significance of the issue, it was especially concerning that in 2018 there were 17 municipalities with CLAs more than 110%. In 2019 the number of municipalities in this category was reduced to 8, and this downward trend continued in 2020 and 2021. In 2021 only one town has a CLA over 110%.

During the 2019 legislative session, the legislature changed the requirements so that municipalities must reappraise if the CLA is below 85% or above 115% (Act 51 of 2019, Section 24). Before 2019, there was only the lower 80% threshold.

Figure 12. CLA Levels Grouped by Municipalities Above/Below CLA

2016	0	1	8	25	60	77	54	20	7	2	1

The COD is a measure of the equity across assessments in a single municipality's grand list. In essence, the COD measures the degree to which individual property valuations vary from the median level of appraisal in a municipality. As such, it is a primary indicator of fairness within a municipality. The higher the COD in a municipality, the more likely it is that similar properties are being assessed at different levels, resulting in inequities in assessments within a grand list.

Assessment equity is important to meet the equal protection requirements of the Vermont and United States constitutions. If a town's grand list shows a common level of appraisal of 90% and all properties are assessed relatively close to 90% of their market value, there is a high degree of equity, and the municipality will have a low COD. Assessment standards generally hold that CODs of 15% or less are good and that for newer, homogenous property types like condominiums, a COD of 10% or less is considered good. If, on the other hand, individual properties range in assessment from 50 to 150% of market value, then property owners are not being treated fairly in terms of the resulting tax burdens. Maintaining the equity or uniformity of assessments is more important than maintaining an overall level of assessment that is close to the 100% valuation standard.

Extremely low CODs can also raise a red flag. Low CODs could indicate municipal officials are assessing properties based on recent sales without considering the impact on similar properties that have not recently sold. This is also known as "sales chasing."

*The objective of ratio studies is to determine appraisal performance for the populations of properties—both sold and unsold parcels. If standardized schedules and formulas are used in the valuation process, there is little reason to expect any significant difference in appraisal performance between sold and unsold parcels. If, however, sold parcels are selectively reappraised based on their sales prices or other criteria, the appraised values used in ratio studies will not be representative and ratio statistics will be distorted. In all probability, calculated measures of central tendency will be artificially high and measure of dispersion will be artificially low.<sup>1</sup>*

<sup>1</sup> Property Appraisal and Assessment Administration, page 601, Joseph K. Eckert, Ph.D., General Editor, IAAO

### Distribution of grand list CODs over time

Figure 13 below indicates the number of municipalities (using a base of 254 municipalities) with CODs falling into the ranges listed at the top of each column. A COD near 20% is considered high. A COD under 10% is reasonable. Figure 13 shows that most municipalities fall into the greater than 10% yet less than 20% category, which indicates reasonable overall assessment equity.

Figure 13. Municipalities and COD by Year

Tax Year	10% and less	>10% and <=20%	>20% and <=30%	>30%
2021	42	190	22	0
2020	63	181	10	0
2019	70	171	13	0
2018	70	169	15	0
2017	68	175	11	1
2016	65	173	16	1
2015	62	178	15	0
2014	62	181	13	1
2013	54	188	13	2
2012	62	175	20	0
2011	68	148	38	3
2010	75	149	27	6
2009	82	139	31	5

Under 32 V.S.A. § 4041a(b), as amended in the 2019 legislative session, a municipality with a common level of appraisal (CLA) less than 85% or higher than 115%, or a COD greater than 20%, must reappraise. A municipality that fails to conduct a voluntary reappraisal will be ordered to do so by the director of PVR. If a municipality does not make a reasonable attempt to reappraise its grand list, all state funding to the municipality can be withheld until it complies with its reappraisal requirement. In 2021, PVR issued reappraisal orders to six towns.

### Payments to municipalities from state funds

The Vermont Department of Taxes assists the Agency of Administration in issuing payments to Vermont towns and cities for several programs. The breakdown of all payments made by the Department in fiscal year 2021 is described in Figure 14.

Figure 14. Payments to Municipalities

<b>Current Use Hold Harmless Payment</b>	General Fund	\$17,708,638
<b>PILOT for State Owned Buildings</b>	General Fund	\$9,750,000
<b>Reappraisal and Grand List Maintenance</b>	General Fund	\$2,855,184
<b>Assistance with Equalization Study</b>	General Fund	\$335,904
<b>Lister Education</b>	General Fund	\$100,000
<b>Request for List Value Adjustment</b>	Education Fund	\$100,000

The largest of the Department programs is the municipal Hold Harmless payment for the Current Use Program. This program reimburses municipalities for property tax revenue not collected from persons enrolled in the Current Use Program. The Current Use Program is described in detail starting on page 19.

The Department's second largest payment program is Payment-In-Lieu-Of-Taxes (PILOT). Annual PILOT payments are made to municipalities to compensate for municipal taxes not collected due to the presence of state-owned buildings in a municipality. These payments are made annually on or before the end of October. Payment is based on the value of state-owned property under 32 V.S.A. § 3701. In 2021, State Buildings PILOT payments totaled \$9.75 million.

For the most part, the remaining programs provide payments to municipalities to assist them with the cost of grand list maintenance and to help pay for the cost of reappraisals. These programs make annual payments to municipalities for the following:

- Payments (\$8.50 per parcel) that must be used by a municipality for grand list maintenance and reappraisal costs
- Payments (\$1 per parcel) to reimburse municipalities for the assistance they provide to PVR in conducting the annual equalization study

Since the passage of Act 60 and Act 68, funding on a per-parcel basis has been available for each municipality for costs related to acquiring assessment education for municipal assessment officials under 32 V.S.A. § 3436. Lister Education funds are used by PVR to offer these courses at no cost to Vermont listers and assessors. The goal is that the funds are used as intended; that all listers regardless of location or finances can access these courses; and to ensure consistent and widespread education of assessing officials for the protection of the grand list and subsequent taxation implications.

Finally, municipalities are eligible to receive assistance from the Education Fund for list value adjustments. As per 32 V.S.A. § 5412 PVR annually considers requests from municipalities for a recalculation of education property tax liabilities when the municipal education grand list lost value due to a determination, declaratory judgement, or settlement. The municipality must apply for this recalculation with the director and must demonstrate that their actions in the appeal or court action were consistent with the best practices for property valuation as published and maintained by PVR. PVR will review each determination for proof that the settlement resulted in a parcel valuation that is consistent with fair market value.

Applications are due in January for determinations of property valuation appeals that were resolved in the previous year. The appeals and settlements can span multiple years and can be attributed to any education property tax classification.

There is an annual limit of \$100,000 for the total reductions to municipal grand lists across the state. If reduction amount associated with appeals and settlements exceeds \$100,000, PVR will prorate the reduction adjustments across municipalities. This may result in all approved municipalities receiving an adjustment of less than the full financial impact of the settled reduction in grand list value.

The approved and prorated (if applicable) reduction amount will be applied as a property exemption in the education grand list associated with the calendar year of settlement. The exemption value when multiplied by the municipal education tax rate will equate to the financial reduction owed to the municipality. No money will directly exchange hands, the overall current year education tax liability for the municipality will be reduced by the PVR awarded best practice settlement reduction amount.

The history of the best practice settlement exemptions and financial value of the awards for grand list years 2017 – 2021 are summarized in Figure 15. The program was initiated in Tax Year 2017.

Figure 15. Awarded Requests for List Value Adjustments

<b>Tax Year</b>	<b>Number of Towns Awarded Adjustment</b>	<b>Total Reduction Value Requested</b>	<b>Total Reduction Value</b>
<b>2020</b>	2	56,012	56,012
<b>2019</b>	1	3,163	3,163
<b>2018</b>	1	8,191	8,191
<b>2017</b>	6	104,237	100,000

## Education and Training

PVR's statutory mission is to encourage, promote, and provide educational opportunities and advancement for listers and assessors throughout the state. PVR accomplishes this mission by:

- creating and promoting relevant educational opportunities for the assessment community;
- developing cooperative relationships with assessment education entities;
- communicating with Vermont officials and the public; and
- publishing and providing guidelines for fair and equitable standards.

In 2021, PVR provided listers, assessors, and other valuation professionals with training in many aspects of property valuation, tax administration, and assessment. Initially many offerings were cancelled due to COVID-19, as they have traditionally been held in-person geographically distributed across the state. However, as in the previous year, PVR held online trainings and webinars, including partnering with other organizations such as the International Association of Assessing Officers (IAAO) to host events.

PVR works with the Vermont Assessors and Listers Association, Vermont League of Cities and Towns, Vermont State Archives and Records Administration, and the New England Municipal Resource Center to offer an assortment of collaborative opportunities and expanded access.

PVR is now in the eighth year of the Vermont Property Assessor Certification Program (VPACP) for listers and assessors. VPACP creates four levels of designation. Each level has prerequisites and requirements, including levels of work experience and training. This certification is designed to encourage seasoned and beginning listers to participate and acquire essential knowledge. This is particularly important since their work impacts grand lists in every municipality in the state.

In addition to the VPACP Program, PVR is responsible for the accreditation and approval of Vermont appraisal firms. These firms comprise supervisors, appraisers, and appraiser trainees who are available to work for and with municipalities whose cities or towns require assessment services or may be undergoing reappraisals. The Department maintains and regularly updates this list on the Department's website.

## Appeals to the Property Tax Hearing Officers

Under 32 V.S.A. §§ 4461-4469, property owners have the right to appeal decisions of the local boards of civil authority to either the Superior Court or the Director of PVR. The Director appoints state hearing officers to hold hearings and decide appeals based on the evidence provided. Currently, there are four hearing officers. PVR is actively recruiting to increase the number of hearing officers to ensure hearings are conducted in a timely manner.

PVR received 67 appeals based on 2020 Grand List activity. Combined with prior-year active appeals, the 2021 results are as follows:

Figure 1. 2021 Appeal Activity

Of the appeals closed in 2021, 36% of appellants withdrew the appeal; 4% of appeals were dismissed; 29% resulted in the parcel's Fair Market Value (FMV) being raised or unchanged; 15.5% resulted in the FMV being reduced less than 20%; and 15.5% resulted in the FMV being reduced more than 20%. The remaining 15 active cases include (10) 2020 appeals and (5) 2019 appeals.

Figure 2. Appeal Activity, 2010-2020<sup>1</sup>

As of December 2021, PVR has received 35 appeals based on 2021 grand list activity. Currently, one appeal has been withdrawn, one has been dismissed, and 33 are pending assignment.

<sup>1</sup> "Open appeals" were distinguished from total appeals beginning in 2015.

## Vermont Property Information Exchange (VTPIE)

The Department of Taxes hosts a statewide data and software system to collect the education grand lists from each municipality per 32 V.S.A. §5404(b) to implement the statewide education property tax system. This system facilitates the collection of municipal and education property tax and is used by every municipality in the state.

Grand List data is electronically aggregated from municipalities and analyzed at the Property Valuation and Review Division of the Department of Taxes and other offices. This is a mission-critical system for the State of Vermont as it collects millions of dollars in Education Fund revenue and provides key data for economic analysis.

In addition to compiling, aggregating, and publicizing the Statewide Grand List data, this system manages parcels enrolled in Current Use; Tax Increment Financing administration; analysis for the Statewide Equalization Study; oversight of town-wide reappraisals; exemption management and other required data, all of which culminates in the issuance of property tax bills reflecting current tax rates.

In order to carry out these functions, the software must integrate with towns' unique local property management programs (Computer Assisted Mass Appraisal software, known as CAMA); various accounting and municipal service software systems; as well as the Tax Department's VTax software. To achieve this functionality the State contracts with software developers specialized in property tax management.

In 2021 and 2022, PVR is working with a new incoming vendor, Axiomatic LLC, and the outgoing vendor, New England Municipal Resource Center, to ensure a successful transition. The timeline includes a multi-year, phased transition of conversion from the current system, which has been in place since 1995. As of publication of this report, two components of the new State management software have been implemented; a GIS and Data View portal which allows users to visualize grand list and property sale information geographically, thus providing increased usability of both current and historic information stored in the Statewide Grand List database. In January of 2022, local and state officials will begin to use the new system to review property sales for the Statewide Equalization Study. Later in 2022, Current Use, Tax Increment Financing and Exemption management will go live, and the remaining operations will be completely transitioned by July 2023.

The contractor, Axiomatic LLC, of New Hampshire, provides application and software development and design services, project management and consulting, support, maintenance and continued system upgrades, user training, as well as data backup and recovery services.

# 2021 Real Estate Transaction Taxes

## Property Transfer Tax

Property Transfer Tax is a tax on the transfer by deed of real property or, effective July 1, 2021, a transfer or acquisition of a controlling interest by any person with title to property in Vermont. The Property Transfer Tax is based upon the value of the property, although exemptions exist that may reduce or waive this tax. A Property Transfer Tax Return must be filed even if no tax is due. The return and payments were integrated into the VTax online system in 2016. Paper returns are only accepted for those who file fewer than five returns per year. All other returns must be filed online in myVTax and are processed by the Taxpayer Services Division.

Property Transfer Tax returns provide critical information that is used by the Department of Taxes, real estate professionals, and the public. Uses of the data include tracking real estate trends, identifying changes to the Current Use Program enrollments, and providing the main data set for the Department's Equalization Study. The number of returns filed with Department of Taxes in FY 2021 totaled 34,556, with approximately 22,535 "Tax Due" returns.

Figure 1. Revenue from Property Transfer Tax

Fiscal Year	Property Transfer Tax Revenue
2021	\$82,409,545
2020	\$46,528,182
2019	\$46,799,306
2018	\$45,844,714
2017	\$38,693,364
2016	\$35,700,436
2015	\$33,604,115
2014	\$30,930,638
2013	\$28,513,867
2012	\$24,096,925
2011	\$25,642,975
2010	\$23,818,572

## Land Gains

Land Gains Tax is a tax on the gain from the sale or exchange of land that has been held for fewer than six years. The main purpose of a Land Gains Tax is to discourage "speculation," the holding of land for a short period and selling at a profit. Thus, the tax rate is on a sliding scale based on the seller's holding period and the percentage of the gain to the basis. The longer the holding period and the smaller the percentage, the less tax is paid.

Effective January 1, 2020, Act 71 of the 2019 Legislative Session changed the definition of "land" subject to the Land Gains Tax to encompass only Vermont land that has been purchased and subdivided by the transferor within six years prior to the sale or exchange of the land, or timber or rights to timber when sold within six years of their purchase, provided the underlying land is also sold within six years. Underlying land means the land from which timber or timber rights have been separated, whether subdivided or not.

The tax is typically paid by the seller, though in certain circumstances, this liability is transferred to the buyer. If there isn't an exemption to waive filing the tax return, the buyer is required to withhold 10% of the purchase price of the land at closing and send this money to the Department. Both the buyer and seller are required to file returns to report the transfer within 30 days of the closing, and the withholding is credited towards any tax due as shown on the returns. The seller may avoid the 10% withholding payment by either obtaining a Commissioner's Certificate from the Department or by paying the actual tax due at closing. The number of returns filed with the Department in FY 2021 totaled 251, including both buyer and seller returns, with 21 "Tax Due" returns.

**Figure 2. Revenue from Land Gains Tax**

Fiscal Year	Land Gains Tax Revenue
2021	\$421,171
2020	\$1,252,439
2019	\$1,664,666
2018	\$1,660,764
2017	\$1,422,754
2016	\$1,237,153
2015	\$1,459,231
2014	\$1,245,566
2013	\$1,158,712
2012	\$783,868
2011	\$880,056
2010	\$600,065

### Real Estate Withholding

Real Estate Withholding Tax is a payment based on the sale or exchange of real estate by nonresidents of Vermont. Although the buyer is responsible for retaining the real estate withholding at closing, the seller receives a credit to be used on the seller's income tax return. Since a gain from the sale of real estate is taxable to a nonresident, the withholding provides assurance that an income tax return will be filed with Vermont.

The rate of withholding is 2.5% of the sales price. The Department may issue a Commissioner's Certificate for reduced withholding when the seller can establish the 2.5% withholding exceeds the seller's maximum tax liability. The number of returns filed with Vermont's Tax Department in FY 2021 totaled 2,588.

Figure 3. Real Estate Withholding Tax Collected

<b>Fiscal Year</b>	<b>Real Estate Withholding Collected</b>
<b>2021</b>	\$28,710,839
<b>2020</b>	\$11,159,584
<b>2019</b>	\$13,535,125
<b>2018</b>	\$13,434,109
<b>2017</b>	\$12,590,956
<b>2016</b>	\$12,380,929
<b>2015</b>	\$10,900,028
<b>2014</b>	\$8,795,179
<b>2013</b>	\$8,248,187

### **Real Estate Withholding Income Tax**

Real Estate Withholding Income Tax is a tax derived from capital gains on the sale of real estate by nonresidents. An income tax return is required when nonresidents sell real estate within Vermont. The real estate withholding retained at closing is a credit against this tax and an overpayment is refunded to the taxpayer. If the withholding does not cover the liability, the seller is responsible for paying the difference. Revenue figures from this tax are incorporated into the overall income tax figures.

## 2021 Current Use (Use Value Appraisal) Program

Vermont's Current Use (Use Value Appraisal) Program began in 1980 with the enrollment of fewer than 120,000 acres. As of 2021, this number has soared to 2,543,995 acres and includes 15,840 landowners and 19,415 parcels (see Figure 1 and Figure 2 for details). Based upon ZIP codes of the owners, 4,455 of the enrolled parcels are owned by out-of-state persons (23%). The Vermont statute regulating the Current Use Program is found in 32 V.S.A. Chapter 124.

Figure 1. Annual Current Use Enrollment 1980-2021

The purposes of the program as defined by 32 V.S.A. § 3751 are to:

- Encourage and assist the maintenance of Vermont's productive agricultural and forest land;
- Encourage and assist in their conservation and preservation for future productive use and for the protection of natural ecological systems;
- Prevent the accelerated conversion of these lands to more intensive use by the pressure of property taxation at values incompatible with the productive capacity of the land;
- Achieve more equitable taxation for undeveloped lands;
- Encourage and assist in the preservation and enhancement of Vermont's scenic natural resources; and
- Enable the citizens of Vermont to plan its orderly growth in the face of increasing development pressures in the interests of the public health, safety and welfare.

Landowners may apply to have eligible land and farm buildings enrolled in the program. In return

for agreeing to keep the property in agricultural and forest production, the landowner pays property taxes based on *use value* rather than *fair market value*. Enrolled farm buildings are exempt from taxes.

Municipalities receive an annual payment from the state, called the “Hold Harmless Payment.” This payment from the state is meant to make up the difference between the municipal taxes paid at use value and the municipal taxes that would be paid on the fair market value of enrolled land and buildings.

Enrolled land is encumbered with a contingent lien in favor of the State of Vermont to ensure payment of the Land Use Change Tax (LUCT) should it ever become due. The Department of Taxes no longer subordinates the state’s lien in favor of a mortgage due to statutory changes that became effective in 2019.

Figure 2. Current Use Annual Enrollment

<b>Tax Year</b>	<b>Parcels</b>	<b>Owners</b>	<b>Agricultural Acres</b>	<b>Forest Acres</b>	<b>Total Acres</b>
<b>2021</b>	19,415	15,840	547,617	1,996,378	2,543,995
<b>2020</b>	19,258	15,669	547,019	1,984,714	2,531,733
<b>2019</b>	19,086	15,490	551,230	1,966,681	2,517,911
<b>2018</b>	18,910	15,307	549,319	1,949,198	2,498,517
<b>2017</b>	18,723	15,147	553,372	1,926,499	2,479,871
<b>2016</b>	18,457	14,905	556,489	1,900,188	2,456,636
<b>2015</b>	18,154	14,653	554,078	1,872,070	2,426,149
<b>2014</b>	18,020	14,553	558,320	1,853,765	2,412,096
<b>2013</b>	17,647	14,246	555,234	1,814,585	2,369,819
<b>2012</b>	17,190	13,831	551,055	1,776,153	2,327,208
<b>2011</b>	16,724	13,469	549,601	1,734,012	2,283,613
<b>2010</b>	16,308	13,135	543,354	1,704,668	2,248,022
<b>2009</b>	15,642	12,570	534,275	1,654,295	2,188,810
<b>2008</b>	15,047	12,078	524,835	1,594,324	2,119,159

Farm buildings in active agricultural use may be enrolled in the program. To enroll farm buildings, owners must earn 50% of their gross annual income from the business of farming or lease to a person who earns 50% of their gross annual income from the business of farming. This includes dwellings used for farm employee housing.

By statute, the use value on farm buildings is established at 0% of fair market value, which means the landowner pays no property tax on these buildings (32 V.S.A. § 3752(12)). For 2021, the value of farm buildings on a parcel enrolled in the program ranged from \$500 to \$5.708 million for the 1,793 parcels that had enrolled farm buildings (Figure 3). The total assessed value of enrolled farm buildings for the 2021 tax year was \$307,157,889.

Figure 3. Recent Farm Building Enrollment

Year	Parcels with Farm Buildings	Listed Value of Farm Buildings
2021	1,793	\$307,157,889
2020	1,810	\$305,068,797
2019	1,826	\$303,037,074
2018	1,840	\$296,843,298
2017	1,877	\$293,998,305
2016	1,892	\$286,186,203
2015	1,843	\$266,363,596
2014	1,879	\$272,374,020
2013	1,883	\$266,749,350
2012	1,857	\$257,446,331
2011	1,851	\$251,682,401
2010	1,972	\$255,515,511
2009	1,993	\$250,021,848

For 2021, the Current Use Program received 1,986 applications. Of these, 353 were new enrollments, 339 were additions, and 1294 were associated with transfers. Of the 1,986 applications, the Department of Forests, Parks and Recreation's county foresters were involved in the review of 1,682 applications.

For the upcoming 2022 tax year, the Current Use Program received 378 applications for new enrollments and 223 applications to add to existing enrollments. As of December 30, 2021, the number of transfer applications is 757. Transfer applications will continue to be submitted for enrolled land and buildings that transfer before April 1, 2022.

### Use Values

The Current Use Advisory Board (CUAB) is charged with adopting rules, providing administrative oversight, and establishing use values. The CUAB meets annually to review data presented by the Agency of Agriculture, Food and Markets and by the Department of Forests, Parks and Recreation regarding the appropriate use values to be assigned for the next property tax year.

The data is used to establish the use values for computing the taxes on enrolled land (see Figure 4). The net annual stumpage value per acre is a key component for forest land use value rate. Pasture and crop land rental values are the key component for agricultural land. The Current Use Advisory Board will be meeting in mid-January 2022 to establish the 2022 use values.

Figure 4. Recent Use Values

Tax Year	Forest Land Value per Acre	Forest Land Value Greater than One Mile from Road per Acre	Agriculture Land Value per Acre
2022	\$170	\$128	\$429
2021	\$152	\$114	\$405
2020	\$151	\$113	\$382
2019	\$145	\$109	\$362
2018	\$136	\$102	\$347
2017	\$135	\$101	\$326
2016	\$135	\$101	\$306
2015	\$131	\$98	\$289
2014	\$118	\$89	\$279
2013	\$119	\$89	\$265
2012	\$123	\$92	\$254
2011	\$122	\$92	\$238
2010	\$122	\$92	\$215
2009	\$123	\$92	\$199

### Program Costs and Tax Savings

Tax savings to landowners increased from \$60.89 million in 2018 to \$66.6 million in 2021 (see Figure 5). As shown in Figure 1, enrollment in the program has increased steadily for parcels, owners, and acres enrolled except for the “easy-out” years in the 1990s and the slight decline in agricultural land enrollment for 2015, 2017, and 2018.

The “Municipal Tax Savings to Enrolled Landowners” column in Figure 5 is the total municipal taxes saved by enrolled landowners and conversely, the taxes not paid to the municipality by the landowner. The state provides a “Hold Harmless Payment” to the municipality each year which makes up for the difference in the lost municipal property taxes due to the prior year’s current use enrollment.

The Hold Harmless Payment in 1980 was just over \$400,000. In 2021, it was \$17.71 million. The calculations for each municipality’s Hold Harmless Payment are available on the Department’s website at <http://tax.vermont.gov/municipal-officials/town-treasurer/hold-harmless>.

For the entire state, the assessed value of property was reduced by \$2.995 billion due to enrollment of land and buildings in the program (see Exempt Reduction amounts at the end of this section). The “Education Tax Savings to Enrolled Landowners” column in Figure 5 is the total statewide education taxes saved by enrolled landowners and conversely the forgone revenue to the state’s Education Fund. “Forgone revenue” means that these taxes are never paid into the Education Fund.

In 2021, the forgone revenue to the Education Fund was \$49,377,071. The breakdown of these numbers for each municipality is found at the end of this section. The value of the program to Vermont's working landscape, relating industries, and environmental quality are not quantified here, but are viewed as significant.

Figure 5. Tax Savings to Landowners

Tax Year	Municipal Tax Savings to Enrolled Landowners	Education Tax Savings to Enrolled Landowners	Total Savings to Enrolled Landowners
2021	\$17,237,387	\$49,377,071	\$66,614,458
2020	\$17,322,844**	\$49,179,608**	\$66,502,452**
2019	\$16,507,284	\$47,594,167	\$64,101,451

### Land Use Change Tax

A one-time Land Use Change Tax (LUCT) is levied when enrolled land is "developed" as that term is defined in 32 V.S.A. § 3752(5). The LUCT becomes due when enrolled land or previously enrolled land becomes developed, or the owner wishes to remove the lien. Alternatively, landowners may withdraw from the program without paying the tax provided they have not developed the land, and the lien continues. The lien remains on the land until the LUCT is paid.

By statute, development includes:

- The construction of any building, road, or other structure except those used for farming, logging, or forestry purposes;
- The use of a building, road, or other structure for uses other than farming, logging, or forestry purposes;
- Any mining, excavation, or landfill activity;
- Creation of a parcel of less than 25 acres unless the transfer is to an immediate relative and the new parcel is eligible for continued enrollment;
- Cutting of timber contrary to a forest or conservation management plan;
- A change in the parcel or use of parcel in violation of the conservation management standards; or
- Agricultural land and buildings that have violated the water quality requirements or order under 6 V.S.A. Chapter 125 and the Secretary of Agricultural, Food and Markets has reported this to the Director of Property Valuation and Review.

Land can be discontinued from the program without having been assessed. These acres are shown in the “Acres Withdrawn (LUCT Not Due)” column. If the land is then developed in the future, the program might find out about the development through a 1) title search when a parcel is being transferred, 2) through the listers who are aware of the previous enrollment, or 3) it might go undetected for years.

Figure 6. Recent Withdrawals of Enrolled Land and Buildings

Calendar Year	LUCT Assessed on Developed Acres	LUCT passed on to Municipality	Acres Developed and/or Lien Removal Requested	Acres Withdrawn (LUCT Not Due)	Number of Farm Buildings Withdrawn	Number of Completed Withdrawals
2021	\$1,289,306	\$407,463	1,466	18,259	90	511
2020	\$516,061	\$229,261	889	20,362	106	451

2010	\$528,710		1,807	5,484		341

In November 2017, the LUCT process was migrated into VTax, the Department’s tax processing system. This process has transformed a system that was heavily dependent on the postal service and spreadsheets to a system that allows quicker and smoother submittal of information by the landowner, foresters, staff, local assessing officials, and municipal clerks. After receipt of the LUCT payment from the landowner, the Tax Department distributes a share of the LUCT collected to the municipality where the land is located.

Figure 7. Participant Tax Savings

Figure 7 appears on pp. 25-33.

## Equalization Study Based on 2021 Grand Lists

The state education property tax is based on each municipality's grand list of properties. PVR conducts an annual Equalization Study of all the municipal grand lists. The primary purpose of the Equalization Study is to assess how close the grand lists are to fair market value. The reference to "equalization" stems from the fact that most municipalities' grand lists are not at 100% of fair market value in any given year. Towns' individual grand list values are equalized to 100% for the education property tax liability calculations. Results of the latest Equalization Study are at <http://tax.vermont.gov/research-and-reports/reports/equalization-study>.

The results of the study have long served as a key factor in the distribution of the Education Fund. With the passage of Act 60 (1997) and Act 68 (2003), the results of the study became more critical to the calculations.

In 2018 and 2019, PVR began a full-scale review of the process of the Equalization Study. The review was designed to identify opportunities to modernize the process, best use staff and resources, and ensure accuracy and equity using current technology. As of January 2022, a streamlined workflow for the Equalization Study will occur in the state administration software system (VTPIE). PVR will continue to collaborate with the Vermont Association of Listers and Assessors to ensure that the study serves the changing needs of Vermont municipalities.

The education Common Level of Appraisal (CLA) is one factor used in the calculation of actual education tax rates. The CLA is also one factor used to determine whether or not a town will be required by statute to perform a reappraisal. If the CLA falls below 85%, the town will be required to reappraise. 32 V.S.A. § 4041a(b).

As predicted, the pandemic has had a dramatic effect on sales prices and thus on the CLA levels in the towns. This year, many towns experienced a large drop in their CLA due to increases in sales prices. Consequently, the number of reappraisals that will be required has increased more than in previous years.

Figure 1. Change in CLA

Percent Change in the CLA <sup>1</sup>	<-20%	-20 to -17.5%	-17.5 to -15%	-15 to -12.5%	-12.5% to -10%	-10 to -7.5%	-7.5 to -5%	-5 to -2.5%	-2.5 to 0%	0 to 2.5%	2.5 to 5%	5 to 7.5%	7.5 to 10%	10 to 12.5%	12.5 to 15%	15 to 17.5%	17.5 to 20%	>20%

<sup>1</sup> Analysis includes reappraisal towns which may experience a greater change than non-reappraisal towns in the year of reappraisal.

For towns that have active tax incremental finance (TIF) districts, the education grand list figure used in the determination of the CLAs includes the value of the “increment.” However, the education grand list figure reported to the Agency of Education for those municipalities to determine the education tax liability does not include the value of the “increment.”

The study methodology is covered in the first section of this report, “Property Tax Administration for 2021 Tax Year,” and is also described in detail in the document titled “Introduction to Vermont’s Equalization Study,” available at <https://tax.vermont.gov/research-and-reports/reports/equalization-study>.

By January 1 of each year, the director of PVR must notify the town clerk and the board of listers of each municipality of the equalized education property value and Coefficient of Dispersion (COD) for the municipality. The Secretary of the Agency of Education is notified of these values annually by April 1. 32 V.S.A §5406.

Per 32 V.S.A §5408, a municipality may petition the Director of Property Valuation and Review for a redetermination of the municipality’s equalized education property value and coefficient of dispersion.

A total of 15 towns appealed the results of the 2020 Equalization Study.

Figure 6. 2021 Summary of Municipal Equalized Values

2021 Summary of Municipal Equalized Values

## Statutory Exemptions

Figure 1 shows the number and values of properties exempt from property taxation per 32 V.S.A. Chapter 125. The data is reported for each town, organized by county. By statute, several types of properties are exempt, including the following:

- Property owned by the United States
- State and municipal governments
- Organizations chartered by act of Congress including veterans' organizations
- Red Cross
- Boy and Girl Scout organizations

Also covered under this statute are real and personal estate that is:

- Used for public, pious, and charitable uses
- Property owned and occupied by a Young Men's or a Women's Christian Association
- Land and buildings used for cemetery purposes
- Grounds and property owned by agricultural societies so long as the same are used annually for agricultural fairs

Towns should list the statutorily exempt properties in their grand lists using a fair market value assessment.

State statute 32 V.S.A. § 3802(a)1 requires the owners of exempt properties to report the insurance replacement cost of certain types of exempt properties. Figure 1 shows how many properties are valued at an appraised value and how many are using the insurance replacement value. The last column shows the aggregate value of the exempt properties.

Figure 1 on the following pages shows the number of exempt properties reported in last year's PVR annual report and the number of exempt properties reported this year. In addition, Figure 1 shows how many properties are valued at an appraised value and how many are using the insurance replacement value. The last column shows the aggregate value of the exempt properties.

Note: Current Use is not a direct exemption and is therefore not reflected in this data. Current Use is a reduction in assessed value, resulting in fewer property taxes collected on the enrolled acreage.

---

## Property Tax Credits

Households with 2020 income less than \$138,500 were eligible to receive property tax credits applied to their 2021-2022 (FY22) property tax bills. Almost 70% of declared homesteads received a credit in FY22. The credits show up on property tax bills as “State Payments.”

The education credit amount is equal to the difference between the education property taxes on the housesite (dwelling and up to two surrounding acres) for the prior year and education taxes based on income, both of which are tied to per-pupil education spending. Households with income under \$47,000 may also receive an additional credit to their education property taxes based on income as prescribed in statute, regardless of per-pupil spending amounts. The total amount of foregone revenue to the education fund in FY22 for these credits is in the “Education Property Tax Credit” column in Figure 1. Households with income of \$47,000 or less are also eligible for a municipal tax credit if their housesite municipal property taxes for the prior year exceeded the applicable percentage of income prescribed in statute. The state general fund reimburses municipalities for the revenue lost due to the municipal tax credit.

Act 11 of 2018 split the both the calculation and the appearance on the bill of property tax credit into its education and municipal components to make property tax bills easier to understand. The presentation of the credit totals in the table below was revamped to reflect that change and to provide totals consistent with other state accounting documents.

Figure 1. Education Property Tax Credits by Year

	Education Property Tax Credit	Municipal Property Tax Credit	Total	% Change
<b>2021</b>	171,553,982	15,893,671	187,447,653	-0.19%

## Actual Taxes and Tax Rates

The tax year 2021 (Fiscal Year 2022) actual taxes and tax rates are shown in **Figure 2**. These rates were levied on the April 1, 2021 grand lists. State education property tax rates are set by the Commissioner of Taxes under 32 V.S.A. § 5402. Municipal rates are, for the most part, set by the municipal legislative body under 17 V.S.A. § 2664.

Some municipalities also set a local agreement rate under 32 V.S.A. § 5404a(d). This rate is levied on the municipal grand list to raise funds to pay the education tax obligation of the municipality resulting from local agreements, e.g., voted exemptions, stabilization agreements, etc. The local agreement rates are broken out separately from the municipal tax rate in Figure 2. The taxes levied by the local agreement rates are included in the education homestead and nonresident taxes.

The homestead base rate remained the same at 1.00. However, starting in tax year 2016 the primary factor for calculating the homestead tax rate became the homestead property yield. For tax year 2021 the homestead property yield was set at \$11,317.

The nonhomestead rate increased to \$1.612 per \$100 of property value.

Figure 1. Education Base Rates for Homesteads and Nonhomestead Properties

Fiscal Year	Tax Year	Homestead Base	Homestead Property Yield	Nonhomestead Tax Rate
<b>FY22</b>	<b>2021</b>	1.00	11,317	1.612

## Acronyms and Terminology

<b>Arm's Length Sale</b>	In real estate, an arm's length transaction is when the buyer and seller each act independently in their own self-interest and have no relationship to each other.
<b>Average Circuit Breaker</b>	The Circuit Breaker Adjustment for a specific town divided by the number of Circuit Breaker Recipients.
<b>Average Educational Fund Adjustment</b>	The total Education Fund Tax Adjustments divided by the number of recipients.
<b>Common Level of Appraisal (CLA)</b>	The ratio of a school district's total taxable unequalized education property value to the total taxable EEPV is the common level of appraisal (CLA). The CLA is used to equalize the education property tax rates throughout the state.
<b>Computer Assisted Mass Appraisal System (CAMA)</b>	A tool used by listers and appraisers to standardize property assessment.
<b>Circuit Breaker Adjustment</b>	The additional adjustment provided to households with income under \$47,000 per year that caps the total property tax liability at the specified percentage of income.
<b>Circuit Breaker Recipients</b>	The number of housesite claimants qualifying for the Circuit Breaker Adjustment.
<b>Coefficient of Dispersion (COD)</b>	Measure of the equity across property assessments in a given category and the municipality's grand list. The COD represents the degree to which individual property valuations vary from the average level of appraisal in that particular municipality. A high COD indicates a need for a reappraisal.
<b>Current Use Advisory Board (CUAB)</b>	Charged with adopting rules, providing administrative oversight, and establishing use values for the Current Use Program.
<b>Current Use Program</b>	Also known as the Use Value Appraisal Program. The purpose of the Current Use Program is to allow the valuation and taxation of farm and forest land based on its remaining in agricultural or forest use instead of its value in the marketplace. The primary objectives of the program are to keep Vermont's agricultural and forest land in production, help slow the development of these lands, and achieve greater equity in property taxation on undeveloped land.

<b>Education Fund Tax Adjustment</b>	The amount of revenue foregone by the Education Fund to pay for the property tax adjustment credits, excluding the Circuit Breaker.
<b>Equalized Education Property Value (EPPV)</b>	The equalization study's estimate of market value for a municipality .
<b>Effective Tax Rate (EFT)</b>	Rates that would be in effect if all towns were appraised at 100% of market value with no equalization adjustment.
<b>Fair Market Value</b>	The value at which a property would be expected to sell in an arm's length sale.
<b>Grand List</b>	Sum total of property value in a municipality divided by 100.
<b>Housesite</b>	A residence including supporting buildings and the surrounding land, up to two acres. For the purposes of enrollment in the Current Use program, more than one dwelling may share the same housesite, provided the dwellings are contained within a two-acre area. This allowance does not apply for unenrolled property.
<b>International Association of Assessing Officers (IAAO)</b>	IAAO is a nonprofit, educational, and research association. It is a professional membership organization of government assessment officials and others interested in the administration of the property tax. See <a href="https://www.iaao.org">https://www.iaao.org</a> .
<b>Land Use Change Tax (LUCT)</b>	A tax that is assessed to participants in the Current Use Program (also known as Use Value Appraisal Program) when any portion of enrolled land is developed or removed from the program by the owner.
<b>New England Municipal Resource Center (NEMRC)</b>	Develops computer products and services for municipal governments. See <a href="http://www.nemrc.com/generalInfo.php">http://www.nemrc.com/generalInfo.php</a> .
<b>Nonhomestead</b>	All property is considered "nonhomestead" (formerly "nonresidential"), unless it is declared as a homestead.
<b>Payment-In-Lieu-Of-Taxes (PILOT)</b>	Annual payments made to municipalities to compensate them for lost municipal tax revenue due to the presence of state-owned buildings in a municipality.
<b>Property Valuation and Review (PVR)</b>	A division of the Vermont Department of Taxes that oversees assessment and assessment practices, for the purpose of administering the statewide education property tax.

<b>Residential property, under six acres (R1)</b>	A property category code used in identifying categories of properties on the Grand List.
<b>Seasonal property, under six acres (S1)</b>	A property category code used in identifying categories of properties on the Grand List.
<b>Tax Increment Financing district (TIF)</b>	A special program through the Vermont Economic Progress Council that allows towns to hold back a portion of their town's education payment obligation to pay for infrastructure.
<b>Use Value Program</b>	See Current Use Program.
<b>Unified Towns and Gores of Essex County (UTG)</b>	The municipal government that consolidated administration for Averill, Avery's Gore, Ferdinand, Lewis, Warner's Grant, and Warren Gore.
<b>Vermont Assessors and Listers Association (VALA)</b>	VALA is a trade association for Vermont listers and assessors. Its mission is to advocate for the recognition of Listers and Assessors as qualified property valuation authorities throughout Vermont. See <a href="http://www.valavt.org">http://www.valavt.org</a> .
<b>VTax</b>	The Vermont Department of Taxes' modern integrated tax system, which streamlines filing and paying taxes. Taxpayers can access the system through the online portal at <a href="http://myVTax.vermont.gov">myVTax.vermont.gov</a> . The conversion to VTax and myVTax was a four-year program from 2014-2017.
<b>Vermont Property Information Exchange (VTPIE)</b>	The statewide data and software system used to aggregate municipal property information (Grand Lists) and implement the statewide education property tax. In addition to facilitating the collection of municipal and education property taxes for every municipality in the state, the system manages parcels enrolled in Current Use; Tax Increment Financing; property tax exemptions; analysis for the Statewide Equalization Study; oversight of town-wide reappraisals and other required data.
