REVISED: July 1, 2010 (as TB-52);

2024.

Subsection 9741(38) of Title 32 Vermont Statutes Annotated limits the sales and use tax imposed on the purchase of tracked vehicles. The law further provides that the maximum tax will be adjusted as of July 1 of each even numbered year by the cumulative inflation index for the prior two calendar years under the Consumer Price Index for urban consumers - all items and rounded to the nearest ten dollars.

The maximum Vermont tax for sales occurring between July 1, 2024 and June 30, 2026 is \$1,710.00 after adjusting for 2022 and 2023 inflation.

The cap is computed as follows:

Unrounded cap for July 1, 2022 to June 30, 2024	\$1,558.34
CPI Urban - All Items December 2021 to December 2023	¹ <u>X1.10023</u>
Unrounded cap July 1, 2024	\$1,714.53
Maximum tax July 1, 2024 through June 30, 2026	\$1,710.00

If the sale of a tracked vehicle takes place in a municipality where the local option sales tax is collected, the additional 1% tax is also due on the sale of tracked vehicles for the first \$28,500 of the price of the vehicle. In cases where the sales price of a tracked vehicle is greater than \$28,500, the local option tax is capped at \$285. In such cases, the total sales tax collected is \$1,995 (\$1,710 cap as calculated above and the additional local option tax of \$285.)

For sales tax reporting purposes, the total sales price of the vehicle will be reported on the vendor's sales tax return as total sales (Line 1), with the balance of any such sale that exceeds \$28,500 shown as nontaxable sales on Line 2.

Example for the sale of a tracked vehicle:

INVOICE		SALES TAX REPORTING CALCULATION	
Selling price	\$78,000	Totals sales	\$78,000
Sales tax due	<u>\$1,710</u>	Nontaxable sales	\$49,500
Total due	\$79,710	Taxable sales	\$28,500
		Sales Tax Due at 6%	\$1,710
		Local Option Tax (Line 4c, if applicable)	\$282
		Total Tax Due	\$1,995
