

The 2017 tax season is underway. Many individual tax filers have been using myVTax to file claims and check the status of returns. If you used "Where's My Refund?" online last year, you'll find the function updated on [myVTax](#). In this newsletter we will show you some the new functions available this year. We also have updates on some of the more common fraud schemes you may encounter.

Our [website](#) has a wealth of information, including how-to videos and guides about myVTax in the [myVTax Resource Center](#).
