Welcome to the eCuse Municipal Service

eCuse is designed to employ the efficiencies and speed of electronic processing so that it is easy to use, easy to navigate, and convenient for all users. The new system allows town clerks, assistant town clerks, and listers to view online applications for the Current Use Program. The eCuse system replaces the old paper version of approved applications being sent to the town. Town officials will print approved Current Use applications from eCuse for recording in the town land records. Because eCUSE is web-based, you have the convenience of accessing it online from anywhere as long as you have your username and password. eCUSE saves time for all users, but it also saves money for taxpayers and the agencies that serve them as it eliminates the need for mailings and postage.
